Product Overview

- Combines the incredible wind range and sheeting ability of a BOW kite with the direct steering and bar simplicity of a 4 line kite.
- Excellent for all level of riding from dedicated wave riding to dedicated freestyle.
- Perfect for hooked in and unhooked riding.
- Radically reduced bar pressure.

Compared to 2006

- Completely re engineered new generation Hybrid/SLE.
- Radically increased wind range and safety
- Increased low wind performance

Control Bar overview

Dedicated Flow control bar featuring:

- Functional pulley free control bar.
- Modular control bar design to allow for multi functional leash, depower and line configuration.
- On the fly stopper ball, for easy bar adjustments

Compared to the DNA

- The flow has a faster turning speed.
- The flow has more a flatter profile for improved upwind ability and high wind performance

Compared to the Lift

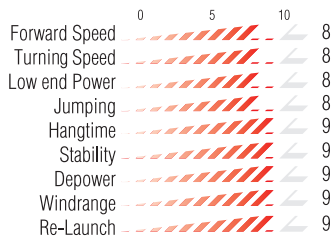

- The Flow has increased wind range due to the Hybrid/SLE design.

Buy this kite if you want:

- A new generation all round performance kite

Target customer

- Advanced beginner to Pro riders.
- Suitable for wave, freeride and freestyle

Performance Characteristics

Key Selling points

- New generation design
- Large windrange
- Easy handling
