

REACTOR

Remains the fastest, most efficient power source on the planet.

2007 REACTOR
COLOR SPEC. (CC.1)

2007 REACTOR
COLOR SPEC. (CC.2)

2007 REACTOR
COLOR SPEC. (CC.3)

- Developed with super efficient entry angles and aerodynamic foil profiles it's all about forward speed and dynamic efficiency.
- The Reactor is not for everyone, designed to turn on a dime and reach warp speed blasting through the window.
- Require precision rider input, but it legendary drive builds an increasingly core group of followers each year.

WARNING - The reactor is extremely sensitive to rider input. For expert use only.

Control Bar overview

Dedicated C-Kite control bar featuring:

- Modular control bar design to allow for multi functional leash, de power and line configuration.
- Options of On the fly stopper ball and Trigger mounted cleat system or traditional strap adjustment system.
- 5th line standard on all control bars, easily removable system to allow 4 or 5 line options.

New for 2007

- Larger sizes are more oriented towards freestyle, power turning and a lot of forward speed.
- Smaller sizes offer more pivotal turning increasing their appeal to wave riding and all round performance.

Compared to the Lift

- The reactor has the highest forward speed and turning available.

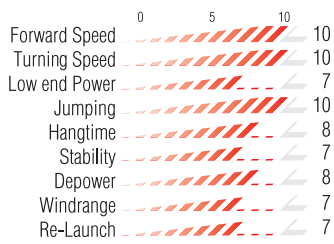

Buy this kite if you want to:

- Only blame yourself if you cant nail something.

Target customer

- Advanced wave and freestyle riders.

Performance Characteristics

Key Selling points

- Extreme C Kite performance
- Lightning fast turning
- High efficiency foil
- Auto Deflators on ball Valves
- Heavy Duty Bag with external pump and bar pocket

Reactor Sizes and Components

Product Code	Model	Std Bar Length	Compatible Bar Length
AK07RE04	Reactor 4	45cm	
AK07RE07	Reactor 7	45cm	
AK07RE09	Reactor 09	45cm	
AK07RE12	Reactor 12	55cm	
AK07RE15	Reactor 15	55cm	65cm
